

## MEDIA IN THE CLASSROOM - 2022

From time to time the children will view a short movie based on one of their favourite books. These books are shown on the wall with an old reel to reel projector. None of the movies are more than 15 min in length and are usually shown in conjunction with the book (Corduroy, Snowy Day, Curious George, Meccer Mayer Frog Series) or on a rainy or too cold day.

Parents are notified of this possibility at the Fall General Meeting and notified of the viewing the day it happens.

As we approach the future and computers are a part of everyday life we are incorporating some use of our laptop computer and our I-pad to seek answers to questions or pictures from the internet.
